To borrow the Trimble Field Points network license onto a workstation so it can be used remotely without being connected to the server,

Open AutoCAD/Revit,

Open or start a drawing.

Tap on the Trimble Field Points tab

Click on the drop-down arrow beside Setup

Then click on *License Manager*

It will open the License Manager dialog box

1	nstructions		
Y	ou can request or return a roaming licer	nse by clicking on the ellipse button on the Roaming field below.	
Yo	ou can also verify or change the license	e server name or TCP/IP Port number	
To Ke Se	 verify the license server name or Port Log into the license server. Check the system info. Click OK.

When you return, simply connect to the network with the server where the license is installed Then repeat the steps on the first two pages of this document.

Once you click on the ellipsis you will be asked if you want to return the license

Simply click Yes, and the license is now available on the server again
